MEMORANDUM FOR: Assistant Director for Reports and Estimates

SUBJECT: Revision of Tentative T/O for ORE

1. When the organization chart for ORE was established, the Plans Staff was set up to monitor projects of this nature through the plans stage, and the Projects Division of the Intelligence Staff to supervise and coordinate all long range production projects when approved for implementation.

2. Such projects also require the assistance of all Branches of your office, both in the planning stage and in their implementation.

3. In order to avoid adding an additional staff section to your office, and to insure against compartmentalizing this project from the interested branches of ORE, it is desired that the requirements be restudied with a view to utilizing to the greatest possible extent all currently authorized facilities and personnel of ORE. Further recommendations for additional personnel should be based on augmenting, if necessary, those branches and staffs of your office which are now authorized, and/or an increase in your currently authorized personnel ceilings.

1 Attach.
Memo dtd Mar 27 to Adviser for Mgt, re above subject.
